

CSE231 Advanced Computer Programming

Lab 07

- 1) Write the code needed to generate the following GUI application illustrated in the figure below.

- 2) Write the code needed to generate the following calculator GUI application illustrated in the figure below, where:
- The Scene root is `BorderPane`.
 - A `stackPane` placed in the top position. It contains a label.
 - A `GridPane` placed in the center position. It contains number buttons (0->9) and (.) button.
 - A `VBox` placed in the right position. It contains operation buttons (+, -, x, /).
 - An `HBox` placed in the bottom position. It contains miscellaneous buttons (C, <-, =).

Hint: use main dimensions for buttons = 50 and spacing = 5.
